Description

Utilises a "2U" slot on a 483mm (19 inch) rack system and provides six socket outlets to power equipment. Various socket options are available. The Rackpower 2000 automatically disconnects the power to the equipment in the case of damage to the protection element or power overload. An integral On/Off switch with circuit breaker and indicator has been provided. EMI/RFI filtration is included. The Rackpower 2000 mounts horizontally while the Rackstrip 2000 is intended for side mounting and can accommodate up to 15 socket outlets, or a combination of power and data modules.

- Compact design
- Surge protection and filtration
- Failsafe protection
- Various socket combinations
