Description

A power strip with surge protection for communication and modum racks. Utilises a "2U" slot on a 483mm rack system and provides 6 sockets outlets to power equipment. The Rackpower and Rackstrip 2000 automatically disconnects the power to the equipment in the case of damage to the protection element or power overload. An integral ON / OFF switch with circuit breaker and indicator has been provided. EMI / RFI filtration is included. The Rackpower 2000 mounts horizontally while the Rackstrip 2000 is intended for side mounting in an equipment cabinet (and can accomodate up to 15 socket outlets).

Features:

- Compact design
- Surge protection and filtration
- Fail-safe protection
